### **Reasons For Allowance**

\* **Claims 1, 4-5, 7-8** are amended, **Claims 11-14** are added. **Claims 1-14** remain pending.

1. **Claims 1-14** are allowable over the prior art.

1.1 The following is an Examiner's statement of reasons for the indication of allowable subject matter: the prior art is exemplified by (US Patent No. 5815635) to **Seoh**.

**Seoh** discloses, e.g., in FIG. 4, a high-definition television video processor along with error detection and correction capability comprising an input unit arranged to input encoded image data, wherein a code train of said encoded image data includes a marker code/signal for a resynchronizing process within one picture; an error detector/corrector/compensator unit arranged to detect/correct/compensate for a code error in the encoded image data via Reed-Solomon/interleaving algorithms.

**However, Seoh** does not teach or suggest the combination of claim elements as described in **Claims 1-14**.

1.2 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Conclusion**
